Pitzer College offers pre-health advising for students through Keck Science, our shared science department with Claremont McKenna College and Scripps College. While our pre-health adviser supports students interested in anything from dentistry programs to veterinary pursuits, this information is specifically geared towards pre-med students hoping to go on to MD or DO programs.

Top 10 medical schools attended by Pitzer College students:

Western University Linkage*
University of Southern California
Case Western University
Kansas City University*
